Ammar Abdelkabir Abdelqader

Junior Data Analyst & Science

+20 120 8486 015 Minya, Egypt ammarabdalkber@gmail.com linkedin.com/in/ammarabdalkber /3mmar3bdalkber

SUMMARY

Information Technology student specializing in Data Analysis and Data Science, with 2 years of practical experience working with data, databases, and analytical systems. Skilled in SQL, Python, Power BI, Tableau, Excel, and machine learning, with additional experience in web development and database-driven applications.

Backed by a strong technical foundation across data and IT systems, ensuring clean code, highly optimized database queries, and scalable analytical systems engineered for business growth.

EDUCATION

Bachelor of Science in Information Technology (IT) GPA: 3.4 / 4.0

Faculty of Computers and Information, Minia University

EXPERIENCE & INTERNSHIPS

Data Analyst Jun. 2026 - Sep.2026

Consolidated Contractors Company (CCC) | Madinaty, New Cairo

- Managed workforce data and maintained records for workers, CHs, supervisors, and engineers.
- Maintained data accuracy and supported daily operational reporting using **Microsoft Excel**.
- Organized and updated workforce records to support day-to-day operations.

Data Analyst Specialist Nov. 2025 - Jul.2026

Digital Egypt Pioneers Initiative (DEPI), R4

- Completed a 9-month **Junior Data Analyst training program** covering Excel, SQL, Power BI, Tableau, Python, and data analysis
- Cleaned and prepared **7+ datasets** using Power Query, then built interactive dashboards to explore datasets and identify patterns and trends for decision-making
- Gained foundational exposure to **data governance** and **prompt engineering** to build awareness of data quality and emerging AI tools
- Completed a **capstone project** applying the full data analytics workflow to communicate insights effectively for entry-level data analysis and business intelligence roles

Data Science Intern Mar. 2026 – Aug.2026

GCI World | Tokyo University

- Completed hands-on training in Python fundamentals, SQL, and core **machine learning** workflows.
- Practiced data manipulation and cleaning with **pandas**, visualized data using **Matplotlib**.
- Built and evaluated **8+ machine learning models** using Scikit-learn with ROC-AUC and accuracy metrics.
- Explored **time series data** analysis and developed a business-oriented marketing mindset for applying insights

Web Development Trainee Aug. 2024 - May 2025

ITI Company | Information Technology Institute

- Developed **2 database-driven web** applications using MySQL and Laravel, improving data handling efficiency for 500+ product records
- Developed database-driven applications using MySQL and Laravel, improving data handling processes.

PROJECTS

Global Asthma Burden Analysis Jul.2026

- Integrated **300K+ records**, **204 countries**, and **34 years (1990–2023)** into a centralized SQL Server data warehouse.
- Built **16 interactive dashboards** across **3 BI tools** — **7 Power BI, 7 Tableau, and 2 Excel** — plus **7 Python-generated visualizations** (Pandas, Matplotlib, Seaborn, Plotly) covering prevalence, mortality, DALYs, and incidence trends.
- Designed a **SQL Server data warehouse** — including normalized **ERD, schema, and stored procedures**.
- Developed an **AI-powered bilingual (Arabic/English) chatbot** that answers questions about global asthma trends, and Predicts asthma risk from patient-level data using **XGBoost Model** (**AsthmAI**).

Bank Marketing Analysis Jun.2026

- Built an **interactive Excel dashboard** analyzing **4,521 bank marketing contacts** to predict term deposit subscriptions.
- Engineered features using **DAX calculated columns** (Age Group, Balance Category, Month sorting) and created key measures (Total Contacts, Subscribed, Conversion Rate)
- Identified the **top 3 customer segments** with the highest conversion potential, achieving a modeled subscription rate of **11.7%.**

E-Commerce Web Application Aug.2025

- Built a fully functional e-commerce site with product listings, shopping cart, and user authentication using Laravel.
- Designed relational database and managed data using MySQL.
- Designed and normalized a relational database across **6 tables** in MySQL, reducing query response time by ~**40%** vs. initial prototype.

TECHNICAL SKILLS

Languages:	Python (Pandas, NumPy), SQL, PHP, JavaScript, C++, C#, Java
BI & Analytics:	Microsoft Excel, Tableau, Power BI, DAX, KPI Tracking, Power Query
ML:	Scikit-learn, Logistic Regression, Model Evaluation (ROC-AUC), Feature Engineering, Supervised/Unsupervised Learning
Web:	HTML5, CSS, JS, Bootstrap
Databases:	MySQL, SQL Server, Oracle
Concepts:	OOP, Data Structures, Design Patterns, Data Cleaning, ETL, Reporting, Prompt Engineering
Tools:	Git, GitHub, Postman, Laravel

SOFT SKILLS

Teamwork | Leadership | Communication | Presentation | Analytical Thinking | Attention to Detail | Problem-Solving | Time Management | Adaptability

CERTIFICATIONS & ACHIEVEMENTS

View All Certificates

DEPI — Data Analytics Specialist, R4	*Jul.2026*
DEPI — Business English	*Jul.2026*
GCI World / Tokyo University — Data Science	*Aug.2026*
CIB – Generative AI	*Aug.2026*
ITI — Full Stack Using PHP	*Aug.2025*
The Freelancing Skills Workshop — YAT	*Feb.2026*

VOLUNTEER EXPERIENCE

Batch (20) Leader — Faculty of Computers and Information, Minia University Aug.2024 - present

- communication between students and instructors - Supported classmates with technical and study-related issues

LANGUAGES

- English (Very Good-B2)
- Arabic (Native)
